

Study 1-Cost of Concussion to Ontario Tax Payers

By Dr. Henry J. Svec

Research Summary-May 3, 2016

We are currently researching the prevalence of concussion injury as the leading event contributing to Disability Status and monthly payments from the Province. 126 psychological assessment reports will be reviewed with suggested estimates given of the prevalence and cost among the 337,587 individuals currently receiving monthly payments due to disability status.

Preliminary Results Available: May 18, 2016

Final Research Report: August 1, 2016
